

July 5, 2020

This letter states my unequivocal support for Andrea Sonnier. I have known Ms. Sonnier as a colleague since 2013 when we first entered the doctoral program in the Department of Education at Gallaudet University. We have spent considerable time together as classmates and eventually as collaborators.

Since day one, Andrea Sonnier has consistently spoken with passion and eloquence on the many topics that are dear to her heart and mind. She is remarkably well-read and knowledgeable; this is among the most impressive of her many fine traits. More importantly, Ms. Sonnier has used kindness, albeit directness, to educate others, including me, on how to be more critically conscious in our work.

Sincerely,

A handwritten signature in cursive script that reads "Julie Tibbitt".
